## ACADEMIC HEAD SPEAKS...

WORKING FOR TINY TOTS & LITTLE KIDS RENDERS ADORABLE MEMORIES STREWN WITH UNBELIEVABLE INSTANCES TO CHERISH. MANY A TIMES I AM BAFFLED BY THE WAY YOUNG MINDS PERCEIVE LIFE'S FACTS AND HANDLE SITUATIONS BRILLIANTLY. NURTURING THEIR SPIRIT OF EXCITEMENT AND CURIOSITY IS OUR PRIME FOCUS. CREATIVITY, LIFE SKILLS AND EXCELLENCE ARE THE CONCEPTS RULING THE DAY. IT IS THE EXPERIMENT, EXPOSURE & EXPERIENCE WHICH CHILDREN GET, THAT BUILDS INTEREST AND CONFIDENCE IN THEM. THIS MAGAZINE IS A STEP IN THAT DIRECTION.

PLEASE READ ON ! PATRONISE ! A PLETHORA OF ENTRIES AWAIT YOUR APPRECIATION.

**TO THE EDITORIAL TEAM .. KUDOS ! YOU COULDN'T BE MORE MAGNIFICENT !!!**

# COLOURS OF LIFE

As We celebrate the festival of colours, let's enjoy the colour of life too. All the different emotions that we experience during our lives are just like the colours of Holi. Some stand out, some blend with other colours to give different shades. Some leave a permanent mark while some get covered with other colours but we experience all of them as they get applied to us.

Love, Anger, Ecstasy, Fear, Sorrow and Delight are all different colours that make life the festival of emotions. In this journey of colorful emotions, let us all open our hearts are welcome to each one of them and watch the rainbow of emotions produce the pure white light of happiness....

# MY Dream

Everyone has a dream in his/her life, which they want to achieve when they grow up. Some kids want to become rich so that they can buy anything in the world. Some want to be a doctor, a lawyer or an engineer but only you know that for achieving these goals you have to work hard.

I also dream of doing something for my country. There are so many problems in our country such as poverty, illiteracy and casteism to name a few. Each one of us should contribute our bit towards our country's development. If we all join hands we shall certainly be able to free our country from these evils.

# I LOVE RECESS TIME

I love recess time in school as it is the happiest and enjoyable time for all students. This period normally comes in the middle of the day almost after a long spell of three-four periods. It is a period of rest and relaxation for the students and teachers.

The moment the bell goes, the students rush out of their classes. They shout with joy. The school ground is full of life and activity. Students play various games. They are in a happy mood. There is a heavy rush at the water taps and at canteen for snacks etc. The teachers too eagerly wait for this period so that they can go to the staff-room and have their lunch.

As soon as the recess is over, the students go back to their classrooms. They feel fresh and active. They get extra energy to work for the next periods. Thus, the recess has its own importance in the school routine.

## Value of time

'Time is the most important factor for the progress of human beings. Time is running continuously. Time once gone is gone forever. It never comes back. Time gives equal opportunity to all. It does not see the poor or rich, young or old, healthy or sick. It is equally important to all. Well said 'Time and tide wait for none'. Time is precious. We can buy everything with money but time can't be bought.

Time can be divided into present, past and future. Past time is already gone. Present is important for us. If we utilize the present time properly, our future automatically becomes bright. So we should not waste our present time.

Time is more important for students. They should utilize their valuable time properly. Those students who utilize their time wisely, will surely succeed in future. Our life is very short. We have to do a lot of things in a limited span of time. So, we must utilize our time properly.

# SOCIAL MEDIA

We all know that social media platforms like Facebook, Instagram and WhatsApp are gaining importance these days as they are connecting people worldwide with just a click of a button.

If we look at the positive side of social media, there are various advantages. One of the major advantages of social media is that it is full of information and helps in providing education live.

It helps to stay updated about what is happening around us that is we do not need a newspaper.

But it has disadvantages too.

It is considered as one of the harmful tools of society.

- It can attack our privacy.
- Spending too much time on social media can deviate us from our studies.

In short, social media has its advantages and disadvantages.

It is up to us how we use it. Use it wisely!

# **CLOTHING OF INDIA**

Clothing for most Indians is quite simple and typically untailored. Men (especially in rural areas) frequently wear little more than a broadcloth dhoti, worn as a loose skirt like loincloth, or, in parts of the south and east, the tighter wraparound lungi. In both cases the body remains bare above the waist, except in cooler weather, when a shawl also may be worn, or in hot weather, when the head may be protected by a turban. The more-affluent and higher-caste men to wear a tailored shirt, increasingly of Western style.

Although most of the Indian women wear saris and short blouses, the way in which a sari is wrapped varies greatly from one region to another. In Punjab, females wear salwar kameez, a combination of pajama-like trousers and a long-tailed shirt (saris being reserved for special occasions). Billowing ankle-length skirts and blouses are the typical female dress of Rajasthan and parts of Gujarat.

The modes of dress of tribal Indians are exceedingly varied and can be, as among certain Naga groups, quite ornate. Throughout India, however, Western dress is increasingly in vogue, especially among urban and educated males. Western-style school uniforms are worn by both sexes in many schools, even in rural India.

# Old age HOME

Old age is an inevitable part of human life. They need care and affection from the family. But nowadays they are dumped in old age homes. An old age home is a shelter that is home to the older and needy people whose family has abandoned. In old age homes, They are taken care of. Also, they are given proper medical facilities. It is saddening to know that we are abandoning our parents and grandparents. It is our responsibility to take care of them.

# Love of **NATURE**

The word nature usually is associated with beauty and calmness. Whenever a person hears the word nature, a feeling of enthusiasm, freshness and happiness is felt. People understand nature as anything that is on the earth comprised of the surroundings such as vegetation, animals, water bodies, mountains and soil among others. However, some understand nature as the surrounding that is revealed uniquely in terms of different shapes such as the green and charming mountains, the snow-capped mountain peaks, the rising and setting sun on the horizon. In short, we all enjoy nature.

# *My Mom* **MY STRENGTH**

My mother is my strength. She always takes stand for me. Whenever I make mistakes, she guides me but very lovingly. I think she didn't just give birth to me, she gave me life. She always supports me to learn new things. She wants me to be who I want to be. She never pressurises me to become a doctor or an engineer. I have really got the Gift of God that is my mother. Love you Mom.

# BEAUTY OF NATURE

We are blessed that we live on such a planet which gives us a beautiful environment to live in.

Nature is everything and anything that surrounds us. From waking up in the morning with sunrays, to sleep at night with moonlight. If you look around you can see the various elements of nature which are making our lives worth living. Nature is like our mother, it nurtures us and provides us everything we deserve and desire. Nature provides us all the luxury and comfort.

Being the superior among all the species it is our responsibility to protect our environment so that we can keep on enjoying and stay blessed in the lap of nature.

# MY FIRST DAY OF SCHOOL

Any first step in our life creates very special and memorable moment, especially when it is your child's first day of school.

On the day, when we were on the way to school, we were thinking how teachers will react to the curiosity of our child, whether proper care and attention will be given to our child or not. When we reached school, we noticed a vibrant atmosphere. All the school teachers were there to welcome the students. The school was beautifully decorated to welcome all the new students, the classrooms were full of posters to make their first day cherishable and unforgettable.
